

Border Masking Tape

Universal-use PVC adhesive tape with very thin carrier film.

- ▶ Very high elongation.
Your advantage:
Ideally suited for masking on curved surfaces.
- ▶ Extremely thin carrier film.
Your advantage:
Allows the creation of a particularly thin enamel edge.
- ▶ Good adhesion.
Your advantage:
 - Suitable for all smooth surfaces in construction or automotive applications, e.g. painted metal, glass, chrome-plated parts or rubber. The tape can be removed immediately after painting without leaving any residue.
 - Suitable for application on all masking tapes in our sales program (e.g. Art. No. 0992 1 ..., 0992 6 ...) to achieve a fine enamel edge.
- ▶ Moisture and solvent resistant.
Your advantage:
The tape is suitable for all painting work with all commonly available solvent-containing and water based paint and enamel systems

Width mm	Length m	Thickn. mm	Art. No.	Pack Qty.

Areas of application

- Masking of paper tapes to achieve a sharper paint edge.
- Sharp-edged masking on smooth surfaces, e.g. decorative spatula techniques in house painting applications.
- Marking in various areas, e.g. piping systems.
- Sealing of boxes, cartons and cans.
- Multiple sealing of small bags.

Specifications

Adhesive base	Rubber
Carrier	PVC, red
Adhesive strength	9 N / 25 mm
Elongation at rupture	60%
Application temperature	+10°C to +25°C
Temperature stability	-30°C to +70°C
Shelf life (at approx.+20°C and 50% humidity)	24 months
UV resistance	No
Moisture resistance	Yes

These notes are intended to provide our advice to the best of our knowledge, based on tests and experience. However, we cannot assume any liability for processing results in individual cases due to the wide variety of applications as well as storage and processing conditions beyond our control. This also applies in case our technical and com-

mercial customer service is consulted free of charge and without obligation. We recommend carrying out individual tests. We guarantee the constant quality of our products. We reserve the right to make technical modifications and advanced developments.

Instructions for use

- The border masking tape is **not** suitable for baking!
- In order to assure residue-free removal of the tape, it must be removed immediately after drying of the paint or enamel
- The tape is **not** UV-resistant and therefore is not suitable for outdoor applications.
