

ELECTRIC SOLDERING IRON

With nickel-plated copper tip and Schuko plug for fine soldering work

Application area

- 15 watt: Microelectronics, printed circuit boards
- 30 watt: Electronics, model building, radio/communications engineering

Art. No.	0715 940 03	0715 940 04
P. Qty.	1	1
Nominal voltage	230 V/AC	230 V/AC
Frequency	50 Hz	50 Hz
Power rating	15 W	30 W
Soldering-tip temperature	370 °C	410 °C
Heat-up time	1.5 min	1.5 min
Material of the grip handle	Plastic	Plastic
Cable length	1.5 m	1.5 m

Spare parts for	Designation	Art. No.
0715 940 03	Soldering tip for electric soldering iron	0715 940 07
0715 940 04	Soldering tip for electric soldering iron	0715 940 08

ELECTRIC SOLDERING IRON

High-performance soldering iron with nickel-plated copper tip and Schuko plug for rough soldering work

Application area

- 100 watt: Rough soldering work, e.g. sheet metal
- 200 watt: Soldering joints on delicate panels, e.g. copper

Art. No.	0715 940 05	0715 940 06
P. Qty.	1	1
Nominal voltage	230 V/AC	230 V/AC
Frequency	50 Hz	50 Hz
Power rating	100 W	200 W
Soldering-tip temperature	500 °C	530 °C
Heat-up time	2.5 min	3 min
Material of the grip handle	Plastic	Plastic
Cable length	1.5 m	1.5 m

Spare parts for	Designation	Art. No.
0715 940 05	Soldering tip for electric soldering iron	0715 940 09
0715 940 06	Soldering tip for electric soldering iron	0715 940 10
